

QUALITY CHARTER

The quality of our products and our service is a contractual commitment with respect to our customers and a mutual commitment shared between the Management and each employee.

Quality is the foundation of our Brand's reputation and our main marketing attribute.

Quality is the backbone of our growth and the base of our profitability's improvement.

Quality is our state of mind and our pride.

We are happy and proud to be ensured that each toecap and each sole which we manufacture, meets completely the standards according to which it was developed, and to be able to think and say that each user of safety shoes built with our products is perfectly protected, as he awaits it.

Meeting this commitment is for each one of our production sites, a permanent, indisputable and immutable objective.

It is our pledge and I declare, in the name of all, never and in any case to derogate to it.

Jean BONNELYE
Chairman - C.E.O.
